

# *ISA CERTIFIED PERSONAL TRAINER COURSE*

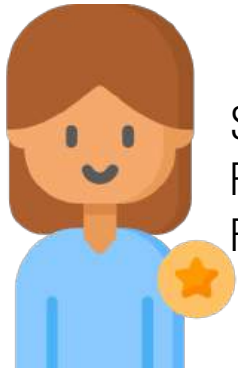

## WEEK 2 – PT SOFT SKILLS AND ACE IFT MODEL

- CHAPTER 2  
(THE ACE INTEGRATED FITNESS TRAINING MODEL)
- CHAPTER 3  
(BASICS OF BEHAVIOUR CHANGE)
- CHAPTER 4  
(EFFECTIVE COMMUNICATION, GOAL SETTING AND TEACHING TECHNIQUES)

*CHAPTER 4*  
*STAGES OF CLIENT*  
*– PT RELATIONSHIPS*

# *CONTENT COVERED*

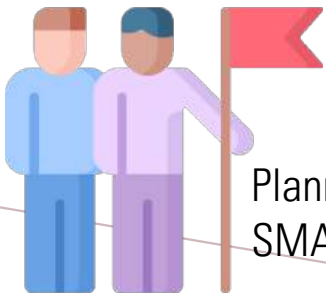

Stages of Client –  
Personal Trainer  
Relationship (Pg 99)

Rapport Stage – Cultural Competence, First  
Impressions, Verbal/Non-Verbal, Professional  
Boundaries and Dealing with Difficult People (Pg 100)

Investigation Stage – Gathering Information,  
Active Listening, Motivational Interviewing,  
Responding to Difficult Disclosures (Pg 105)

Planning Stage – Setting Goals,  
SMART Goals (Pg 115)

Action Stage – Self Monitoring Approaches, Stages of  
Learning, Learning Styles, Learning Styles Indicators,  
Tell-Show-Do, Providing Feedback, Modelling (Pg 121)

# *STAGES OF CLIENT – PERSONAL TRAINER RELATIONSHIP*

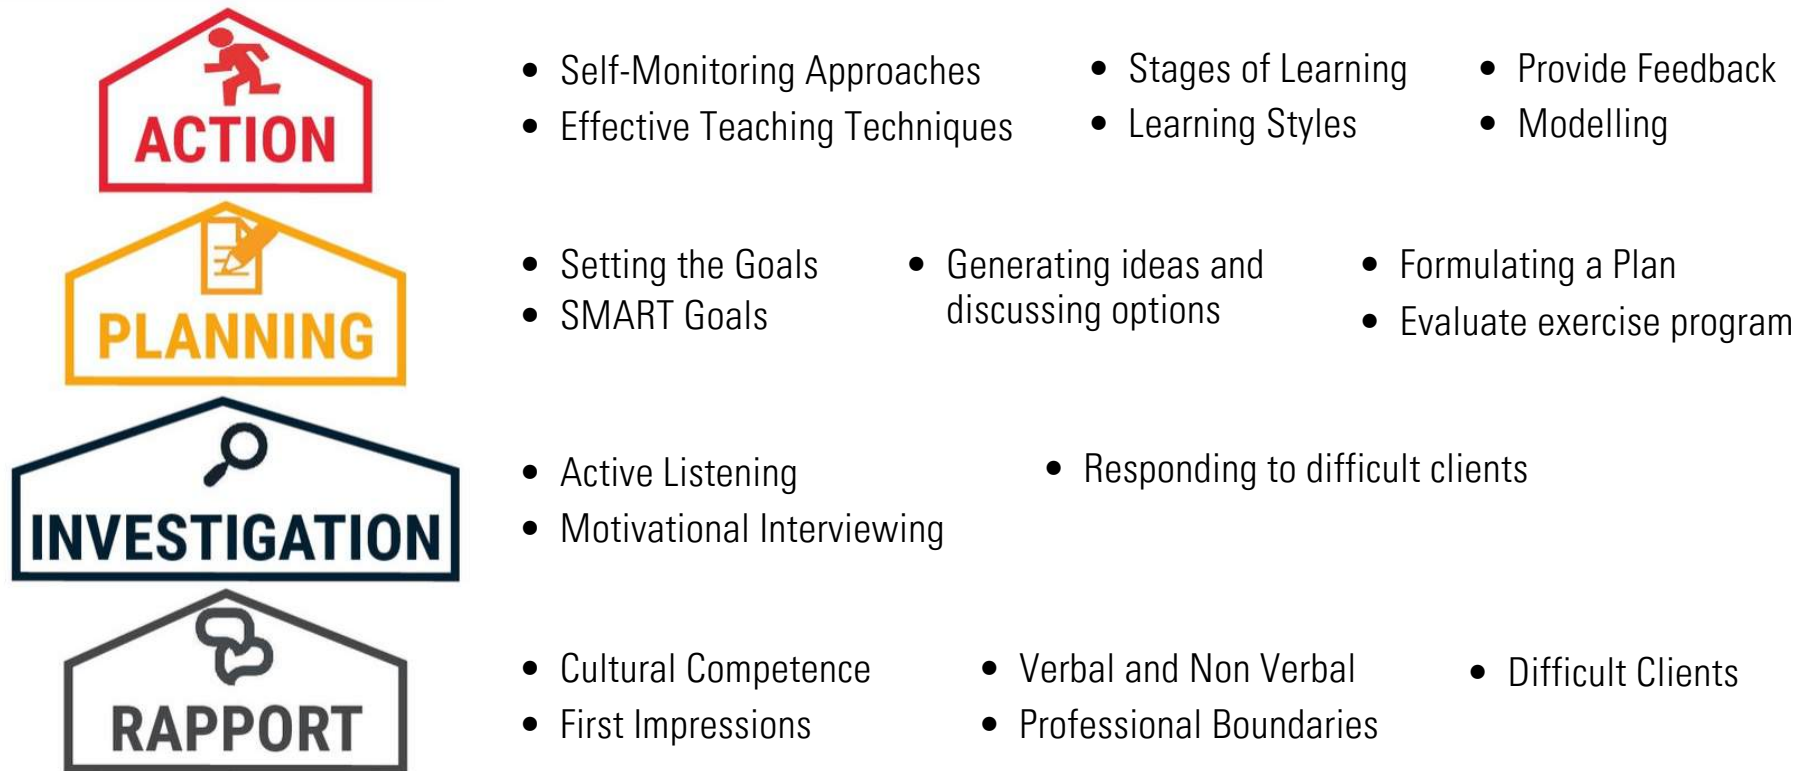

Figure 4-1: Stages of the client – personal trainer relationship

# *RAPPORT STAGE*

## Cultural Competence

- Be self aware of personal biasness

## First Impressions

- Creating a positive first impression for the rapport-building process

## Non Verbal Communication

- Voice quality

## Professional Boundaries

- Cueing and touching client

## Difficult Clients

- Client has previous bad experiences

# *INVESTIGATION STAGE*

## Motivational Interviewing

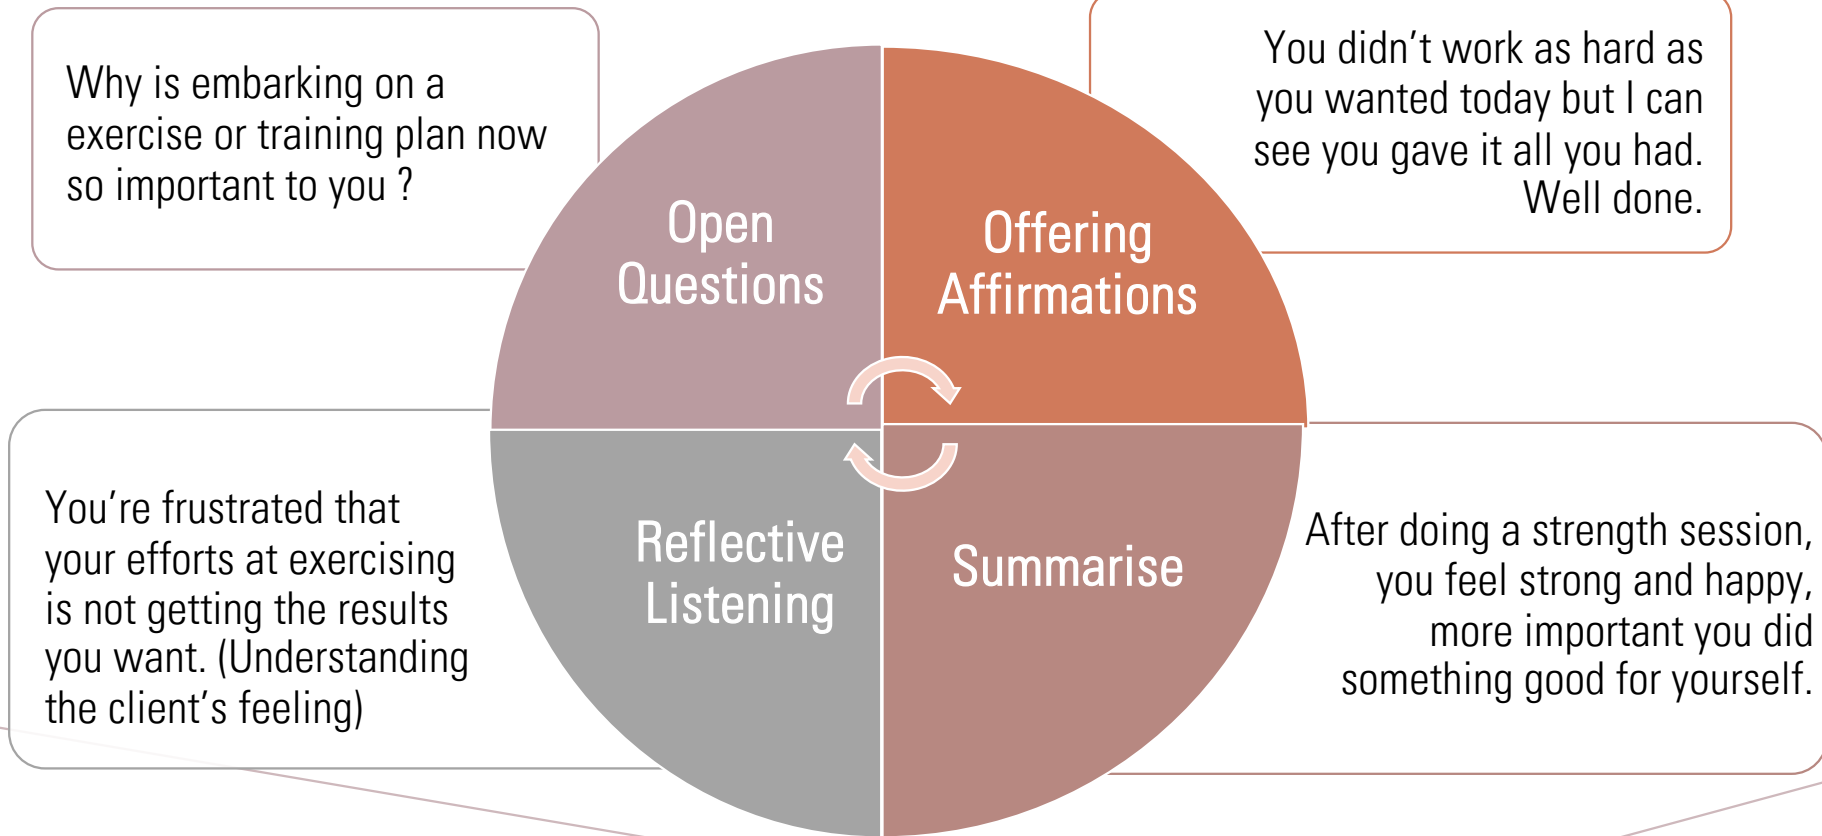

Directing vs Guiding  
Style

Change Talk

Use of Importance Ruler  
to be a Partner of  
Change

Spirit of Motivation is to  
Collaborate,  
Acceptance, Compassion  
and Evocation

# *THE OARS OF MOTIVATIONAL INTERVIEWING*

# *RESPOND TO DIFFICULT DISCLOSURES*

- With the disclosure of something very sad, such as a client's serious illness, or the illness or death of someone close to the client, a short response may be all that is appropriate
- If a situation affects the exercise program design, turn the conversation back to the practical detail
- If new medical information of concern is disclosed, refer the client to their healthcare provider for medical clearance.
- If a new medical condition places a client outside of the personal trainer's scope of practice and expertise, the client should be referred out.

# *THE PLANNING STAGE*

- Steps of Planning:
  - Setting effective SMART goals and evaluate progress regularly
  - Generating and discussing options
  - Formulating a plan
  - Evaluating the exercise program

# *PLANNING STAGE*

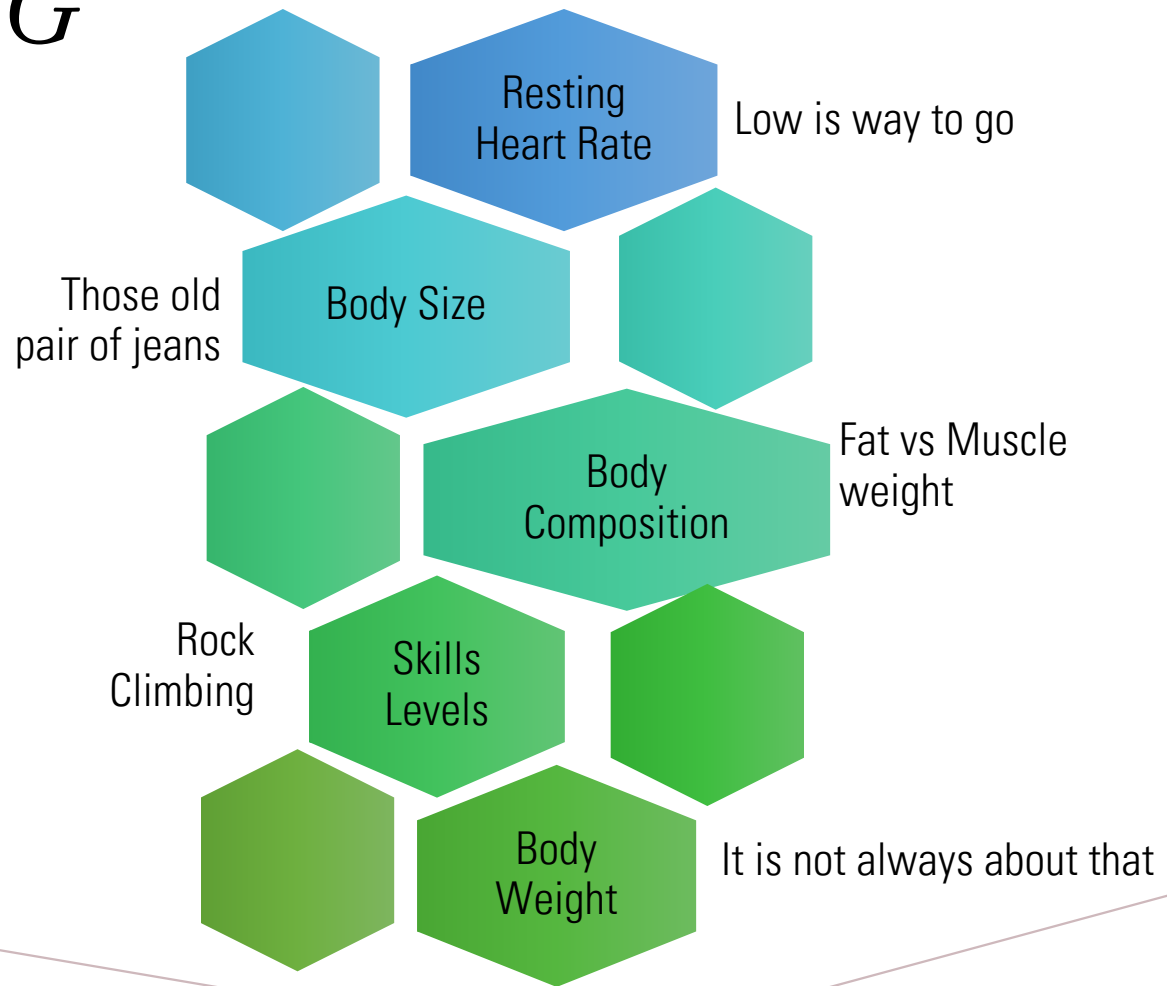

## Quick Tips:

There should not be too many goals or be too negative. It is important to include the client during discussion and revisit these goals regularly.

# *FITNESS INDICATORS FOR SMART GOAL SETTING*

Here are some Fitness Indicators you can use for setting SMART GOALS.  
Can you name others?

- How many goals?
- Positive or negative goals?
- Short-term or long-term goals?
- Product or process goals?
- How often to set goals?

# *THE PLANNING STAGE: EVALUATING THE EXERCISE PROGRAM*

- ❑ Review client exercise records regularly during the session and discuss changes where necessary.
- ❑ Reassess the client periodically to measure progress.
- ❑ Evaluate both exercise challenge and adherence.
- ❑ Modify the program as necessary.
- ❑ If adherence is faltering, discuss the problems and revise the exercise program design as necessary.

# *ACTION STAGE*

## Teaching Techniques

Stages of Learning

Learning Style

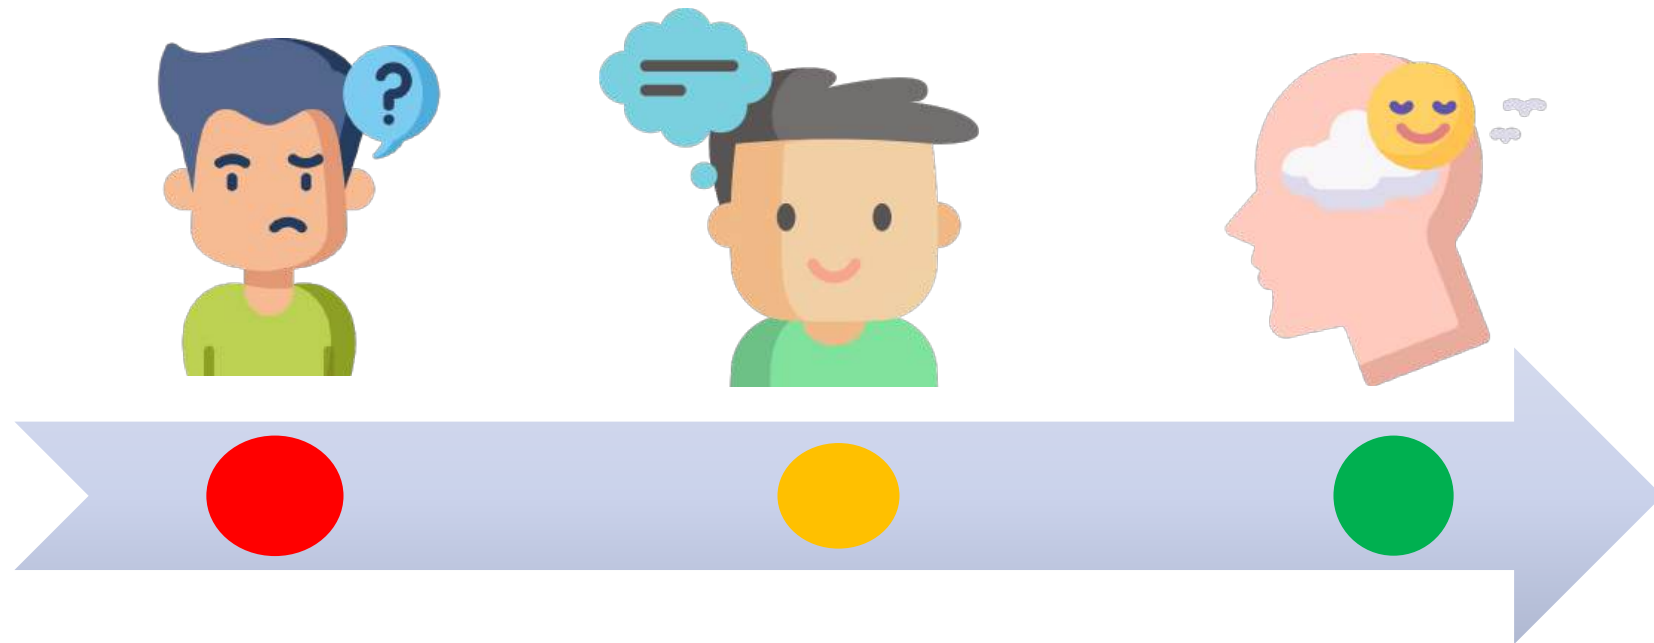

Tell-Show-Do

Providing Feedback

Modelling – Are you what  
you preach?

# *STAGES OF LEARNING*

**Cognitive**  
Tell me what & why.

**Associative**  
Show me how to do,  
adjustments needed.

**Autonomous**  
Just give cues,  
adjustments if needed.

Type and amount of feedback at each stage

# LEARNING STYLES

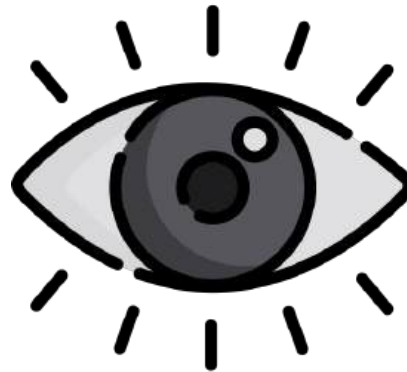

## Preferred Learning Style Indicators

|                  | Visual                                 | Auditory                                       | Kinesthetic                                 |
|------------------|----------------------------------------|------------------------------------------------|---------------------------------------------|
| Client actions   | Watches intently<br>Prefers reading    | Listens carefully<br>Prefers hearing           | Touches or holds<br>Prefers to be spotted   |
| Client statement | "Oh, I see"<br>"Let me see that again" | "Yeah, I hear you"<br>"Say that one more time" | "I feel that"<br>"This does not feel right" |
| Strategy         | Demonstrations                         | Question and answer                            | Hands-on supervision                        |

# *LEARNING STYLES*

Audio

Visual

Kinesthetics

## KEY PHASES:

"Hips below your knees  
for a deeper squat"

"Observe my knees are not  
bent, only my hips move  
backwards on a deadlift"

"Retract your shoulders till your  
spine touches my dowel to achieve  
neutral spine"

# TELL-SHOW-DO

Tell

Show

Do

## KEY ACTIONS:

Tell beginners motor skills will take time

Introduce new skills slowly and clearly

Allow them to focus on practice

# *PROVIDING FEEDBACK*

## Knowledge of results

- Information of progress

## Extrinsic feedback

- Reinforcement, error correction
- Encouragement
- Should taper off so client can move to intrinsic feedback

## Intrinsic feedback

- Self efficacy
- Ability for client to provide their own feedback
